

Building Codes, Standards and Guidelines

Code Compliance: Make Sure Your Business Measures Up

Instructor(s): John Barrows, GMB, CGP

Navigating through building codes, standards and guidelines is critical to the success of any builder, remodeler, construction manager and trade partner. This course is based on the current International Residential Code (IRC) requirements and includes a section on standards. Leading edge trends in code development and NAHB's popular Residential Construction Performance Guidelines will be discussed.

As a graduate of this course, you will be able to:

- Understand the creation, evolution and adoption of building codes
- Explain how the International Residential Code for One and Two-Family Dwellings is administered and enforced
- Complete the building planning process as it relates to addressing code design criteria and participating in plan review
- Navigate through codes and standards to effectively locate and interpret needed information
- Describe how performance guidelines are developed, organized and applied to achieve quality construction
